SUMMARY

Experienced UX/UI Designer with 5+ years of experience designing enterprise-grade digital tools for financial organizations. I specialize in transforming complex systems into clear, scalable user experiences. My work has helped teams launch faster, reduce manual effort, and align cross-functional groups. I work end-to-end across product discovery, UX Strategy, prototyping and dev handoff with a focus on usability and efficiency.

Relevant Experience

Capco - UX Design Consultant

Aug 2021 - Aug 2025 - Full-Time Consultant | Remote | NYC-Based Clients

Worked as a consultant for Fortune 500 financial clients, delivering UX Design, product strategy, and documentation for internal tools, mobile apps, and surveillance systems. Partnered with developers, PMs, compliance teams, and stakeholders across large-scale launches and platform transformations.

Capco Client: Deutsche Bank - UX Design Consultant (Internal Work Manager Hub)

Designed a centralized dashboard for 300+ employees in operations and compliance roles, consolidating 5+ disconnected tools.

- Created task-based flows, prioritized layouts and interactions using Figma, html and css.
- Reduced task confusion and rework by creating an interface with visibility into daily responsibilities and shared work.
- Collaborated with developers and product leads to ensure seamless build.

Capco Client: Santander - UX Design Consultant (App Store Mobile App)

Delivered customer-facing app flows, store assets, and onboarding visuals used in Santander's U.S. mobile launch, which reached 100K users at launch.

- Created support visuals and app content in collaboration with marketing.
- Translated product requirements into market-ready visuals and support that enabled a smooth go-live.
- Took ownership and managed Figma designs & documentation.

Capco Client Client: Morgan Stanley - UX Support Consultant (SaaS System)

Gathered product and UX requirements for internal SaaS transformation platforms.

- Translated technical and regulatory inputs into UX-ready user stories
- Facilitated daily working sessions and SME alignment during go-live preparation.
- Delivered documentation that supported implementation and reduced last-minute scope misalignment.
